

## The slug trap without pesticides

- ✓ **Environmentally friendly: no use of pesticides**
- ✓ **Reusable: lasts for years and is future-proof**
- ✓ **Effective: can catch up to 30 slugs in the first two weeks, depending on slug pressure**
- ✓ **Tested and approved: thoroughly tested with growers and in various crops**
- ✓ **Co-developed by TU Delft**

## What is Backie?

Backie is a pesticide-free, reusable slug trap designed to catch small slugs, such as the Spanish slug.

The product was developed in collaboration with Cut Cymbidium growers and has been tested in various crops such as Alstroemeria, Gerbera, and Anthurium.

Backie uses wheat bran as bait, which is inexpensive and effective.

## Backie is environmentally friendly

Using Backie has several benefits for you:

- **Environmentally friendly:** catches slugs without the use of harmful pesticides.
- **Durable & reusable:** designed to last for years, making it a cost-effective solution.
- **Proven effectiveness:** can catch up to 30 slugs in the first two weeks, depending on the amount of slugs in your crop.
- **Extensively tested:** successfully tested in various crops, including Cymbidium, Alstroemeria, Gerbera, and Anthurium.

## How does it work?

Using Backie is very easy:

- **Easy to assemble and use,** clear instructions provided.
- **Effective bait:** use wheat bran, a cheap and long-lasting bait, enhanced by optimized airflow.
- **Maintenance:** easy to clean and maintain for long-term use.
